

COTTUNIQUE®100% FORTREL♦ SPUN POLYESTER

THE SOFTNESS OF COTTON, THE DURABILITY OF POLYESTER-IT OUTLASTS BOTH!

1. BEFORE YOU WASH:

- Make sure your washer and dryer are in good working order with no rough areas that might snag fabric
- Lights and darks should be separated
- Wash all polyester separate from cotton and poly/cotton fabrics.
- Never overload the machine.

2. WASHING:

- Water temperature should not exceed 140 degrees
- Use a gradual cool-down or split rinse
- Use bleach on white only ; it can cause colors on polyester to fade or to change color shade
- Choose laundry products with the correct alkalinity.
- Avoid fabric softeners.

3. EXTRACTION:

- Keep extraction time short (30-60 seconds) to minimize wrinkles.

4. DRYING:

- Do not overload dryer.
- Temperature should not exceed 140 degrees
- Don't over-dry, only 10-20 minutes
- To avoid wrinkles, remove polyester fabric while still slightly damp and warm. Pat flat and fold promptly.

GENERAL TABLE LINEN WASHING INSTRUCTIONS

- **Make sure your washer and dryer are in good working order with no rough areas that might snag fabric.**
- **All linens should be free of excess food. Shake to remove foreign debris.**
- **Stains should be pre-treated with products similar to Shout®, Zout®, OxiClean®, or Lestoil®. Follow all manufacturer's instructions. Test stain remover on hidden area of linens before use.**
- **Wash dark colors separately.**
- **Wash like fibers together. Do not mix Polyester with Poly/Cotton Blends, etc.**
- **Do not overload washer or dryer.**
- **Gradually cool linens in dryer to avoid temperature shock and excessive wrinkling.**
- **Fold immediately after taking out of dryer.**
- **If using a mangle (roller/rotary iron) put linens in slightly damp and use a temperature setting of 250°. Be sure to feed linens in straight on fabric grain to avoid shape distortion.**
